

NEWS OF THE DAY

June 30, 2015:- One day Users' Meet on "Quality Evaluation of Chillies by Conveyorized Vision Inspection (CT-VIEU) System" was held at Hotel Sindoori, Guntur, A.P. June 11, 2015. The event was organized by C-DAC Kolkata in association with National Collateral Management Services Limited, Hyderabad under the "PAN C-DAC Research Initiatives in Perception Engineering" project, funded by DeitY, MCIT, Government of India.

The Users' Meet was formally inaugurated by Prof. E. S. R. Gopal, Emeritus Professor, IISc Bangalore. The Seminar was attended by more than 115 registered participants representing Farmer community of Chillies, Spice Board of India, Horticulture Deptt. of A.P., Traders and other agencies related to Chillies. Technical presentations on CT-VIEU system were deliberated along with live demonstration of the developed conveyorized system with various samples of chillies brought by different agencies and farmers.

The event was concluded successfully with wide participation and dissemination of the technology developed; and also covered and published by 6 to 7 local chronicles at Guntur. Some of their publications are given below. The Users' meet has paved the way for possible commercialisation of the product in view of the good feedback received from the end users who attended the meet.
